### Public Information

Sean has a list of (approximately 90) organizations to send out public information to.

**Tracey** to ask **Susannah** to order 120 pamphlets – “For the Professional: Information on SLAA” pamphlets.

**Susannah** to contact **Paul** about getting literature for free? Tracey to pass on Paul’s details.

**Patrick** to get in touch with **Sean** to discuss flyer and covering letter. Flyer to be as per last year’s with new website details added. Flyer to include information that pamphlets and further information are available by email or phone.

We also discussed the possibility of Public Information via a presentation to medical professionals. It was thought that this would be in breach of Tradition Five. It was also agreed that we do not have the resources to undertake this type of project anyway. There are not enough people doing service within SLAA Melbourne.

### Phone Line

The SLAA phone line has had fluctuating amounts of incoming calls and is going well. Mainly mobile numbers are left. Dean is to be reimbursed for his expenses in calling people back. He has been making some of the return calls to male callers himself. He has been referring the female callers to Jane to return their call. There is now a list so that other members can now have share the returning of calls.

It was agreed that the phone line should have information regarding the new Australian SLAA website. This will cut down on telephone enquiries as some people will easily be able to access meeting information etc. **Sean**, Could you please organize this?
